000,000 bushels, instead of the 48,00,000 anticipated four of five weeks ago, thus work on deck the crew gathered in the sealouse the acre was a foot of the sealouse with a concerned 4,000,000 balow for creatile, when the w. d. s. soon com-WEEKLY. n advance; posto; anticipated four of five weeks ago, thus reducing the crop some 4,000,000 below the crop of last year." ies of either edition of the LATEL. res on application.

CLEVELAND.

Excursions - Fairport-Black River-Put-in-Bay, &c.-Lookout.

CLEVELAND, August 14, 1878.

By your permission we will give short account of our visit to this place Perhaps it may prove interesting to some of your many readers. On Wednesday morning of last week we boarded the train and soon found ourselves bounding at a rapid speed over the C. & P. railroad We reached Wellsville at 8 A. M. and found we would have to wait two hours for a train to convey us to our destina-tion, which time we spent in looking about the town. Finally the two hours and expired, and we were on our way gain. We entered the Union depot at Sleveland at 4 o'clock P. M., and feeling omewhat tired and fatigued after a long day's travel we retired early to bed. Th day's travel we retired early to bed. The next: morning was a beautiful one, and gave promise of a delightful day, which it proved to be. We inquired if there were any excursions to leave that day, and were informed that the St. John's Society of this place would excurt to Fairport on board the large steamer City of Detroit, a distance on the lake of some thirty miles. The steamer was adver-tised to leave at half-past eight sharp-but it was fully nine o'clock before she eft. We concluded to join the crowd and so along, so we boarded the boat with others. After all had got or d. The Floating Palace with he ness load of human beings shoved ont from the dock and we were soon far out upon the lake, perhaps a couple of niles from the shore, which distance we out upon the lare, persays a miles from the shore, which distance we kept most all the way to the port. Arriving at Fairport about 11 o'clock a. M., we were conveyed in cars over a mile to the groye, where all who desired tipped grove, where all who desired tipped light fantastic or engaged in some er harmless enjoyment until it was

octock we were all homeward bound, and many were the glad hearts when the Cleveland light houses became visible, and at 7 octock r. M. we were safely landed at the foot of St. Clair street, which place we started from in the morning. The steamer City of Detroit is considered one of the mortheautiful ateamers on the lake. She is indeed a beauty, is elegantly finished, and she carries a gentlemanty set of officers. Her length is 250 feet, width 67 feet and draws nice, feet of water, and is capable of carrying

bushels grown from 30,000,000 acres; the largest number of acres (27,029,021) sown 

000 for winter wheat, As to the yield of winter wheat, authori-

bushels, against 325,000,000 last year,

"All these expectations fully realized excepted in Southern Min-nesofs and the central part of the north-ern border of Iowa, and, in order to see what reductions are justified from the above estimate of the whole crop, we may take the several northwestern states, about which there seems to be the greatest doubt, and examine their condiion and expectations down to the begin-

on:
"Last year Iows produced more wheat than any other state in the Union, and had more acres planted in wheat than any other state, therefore an estimate of 500,000 acres this year over last—upon the basis of the above mentioned official report from Washington—is very mod-

'The damage done to wheat in Iowa in July by heat and storms was less in the aggregate than in Minnesota, and the in-crease of 500,000 acres would not only ore than offeet such damage, but in all robabilitity leave the total crop of Iowa this year enough in excess of last year to balance the decrease of 4,000,000 bushels in Minnesota. It may therefore be safe-ly assumed that the crops of lowa and Minnesota together will this year be equal if not largely in excess of last year."

Respecting Nebraska we quote:

"The crop in that state having been practically secured, it may be assumed that the harvest will show no reduction in quantity from the prospect on August 1, which was as follows, viz: Acres. Probable yield. 13 525 2[2 180 ....... 1,068,415 22,294,100

1,079,660 Total.... 22,506,280 Respecting Dakota the conclusion is not the wheat crop this year will be 9,00,000 bushels against 4,500,00 last year. Respecting Kansas we quote: We may therefore, safely estimate th

total area of wheat in Kanasa this year at 1,900,000 acres, showing an increase of over 450,000 acres over the area, of the previous year. The yield this year is confidently estimated at nineteen bushels east 10,000,000 bushels over last year."

The California wheat crop is estimated at 40,000,000 bushels against 28,000,000 last year.

The conclusion of the writer is as follows: "The whole of these figures for th the seven states of Illinois

nesota, Dakota, Nebraska, Kansas and California, the conclusion arrived at is 000 bushels for dec nesota by reason of the damage done in July, and 4,000,000 or 5,000,000 from the same cause in Iowa, these seven states will produce at least 50,000,000 bushels wheat in 1878 then they

more wheat in 1878 then they did in 1877.

As stated in the first part of this article, the reasonable expectation of the whole crop of wheat in the United States this year was 429,000,000 bushels. This has been reduced by the damage in Minnesota and Iowa about 22,000,000 bushels, this

which place we started from in the morrory. The seamon City Controlls of considered oncold the morbest utilitial state of controlled the state of the control of the contro

THE Earl of Fife's life is insured for \$2,500,000. Isn't the insurance business going to pay pretty dear for its whistle?

| Danbury News.

A Young man in San Francisco put out one of his eyes while taking off a shirt; a spiral stud did the mischief. Moral: Never wear a shirt. ACCORDING to the theories of Kearney, the condition of the labor market is positively apalling. There is work enough for nearly everybody.

THE platform of the National party can be condensed into one plank; "Wanted, some money, without earning it.", resident the property of the pr

With a Three-Card Monte Man.
From the Bay City (Michigan) News.
As a lake schooner (which arrived at Bay City yesterday) was about to leave Buffalo, a well-dressed stranger stepped aboard and inquired of the Captain whither he was going. Upon being in-formed that the vessel was bound for Bay City, the w. d. s. stated that he would like to visit that far-famed city himself but as he was "strapped" he could not ge there without working his passage. The Captain replied that he was short-handed

forecastle, when the w. d. s. soon com-menced to throw three cards, and in a short space of time had all the money of the ship's crew, from the Captain down, short space of time had all the money of the ship's crew, from the Captain down, having wune it by a process called three-card monte. The crew saw what was up and resolved on getting even. A brezze sprung up and our w, d. s. was set to work on a deck pump, which run through to the centre board-box, and was informed that he must work until the pump "sucked," as the ship was leaking. The w. d. s. was badly frightened, and commenced working with a will, although it is needless to remark that every drop pumped came direct from the lake and not the ship's hold. He was kept at it until nearly dead, and pleaded with the Captain to be set ashore. But no go. At Detroit he wanted the Captain to hire a man in his place, but the old seadog replied, "not by a d—n sight. You shipped to Bay City, and to Bay City you go." And he did, too. He was kept at the pump almost continually during the entire trip, and when he arrived in Bay City was about ready to go into a coffin. He was compelled to disgorge, however, and then was kicked ashore. He left at once for Saginaw, but swore that the next time he wanted to work a three-card

and then was kicked ashore. He left at once for Saginaw, but awore that the next time he wanted to work a three-card monte game, he'd go where they did want him to pump Lake Erie and Saginaw Bay dry.
